## **Policy on Unattended Children**

*Adopted by the Board of Trustees January 26, 1999*

*In order to provide for the general welfare of all persons using the library, and in order to provide for the general safety of children using the Library:*

- All children in Grade 2 and younger shall, at all times, be attended and adequately supervised by a responsible person - an adult or mature adolescent.
- Children in Grades 3 through 6 may use the Children's Library when unaccompanied, provided a responsible person remains in the Library building.
- Parents, not Library staff, are responsible for children's behavior in the library. Children deemed out of control or disruptive to other patrons will be asked to leave.
- It is not the Library's function to provide child care. The Library will contact the Glen Cove Police Department if children are left unattended in the library.
